3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Recognition of revenues and expenses

The revenues from car leases are recognized as revenue by the straight-line method over the period of contracts but will not be recognized if its customers have not paid the lease charges over 3 months.

Revenue from sale of goods is recognized at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. Revenue is measured at the amount of the consideration received or receivable, excluding value added tax, of goods supplied after deducting returns and discounts.

Interest income is recognized as revenue on a time proportion basis the effective yield.

Dividend incomes are recognized when the right to receive the dividends is established.

Other incomes and expenses are recognized on the accrual basis.

3.2 Cash and cash equivalents

Cash and cash equivalents consist of cash and deposits at financial institutions with an original maturity of 3 months or less and excluded cash at banks which are used for guarantee.

3.3 Trade Receivables

Trade receivables are stated at their invoice value less allowance for expected credit losses unless they contain significant financing components, when they are recognized at present value.

The allowance for expected credit losses is disclosed in Note 3.4.

3.4 Financial instruments

Classification and measurement of financial assets

Financial assets are classified, at initial recognition, as to be subsequently measured at amortized cost, fair value through other comprehensive income, or fair value through profit or loss. The classification of financial assets at initial recognition is driven by the Company and its subsidiary's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Equity instruments can be classified and cannot be changed by two types of measurement which are measuring fair value through profit or loss or measuring fair value through other comprehensive income that without recycling to profit or loss.

KRUNGTHAI CAR RENT AND LEASE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY
NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

The initial recognition of financial assets that are not measured at fair value through profit or loss with fair value plus or deduct transaction cost directly related to the acquisition or issuance. Financial assets that are measured at fair value through profit or loss, transaction costs are recognized as expense in profit or loss.

Subsequent measurement of debt instruments by 3 methods depend on the classification of debt instruments.

- Financial assets measured at amortized cost when financial assets are held to receive cash flow under the agreement and condition of the agreement of the financial assets that generate cash flow to pay the principal and interest from the principal balance on the specified date only. Such financial assets have to be calculated using the effective rate and are subject to impairment assessment. Profit or loss arising from derecognized, modified or impaired will be recognized in profit or loss.
- Financial assets measured at fair value through other comprehensive income when financial assets are held to receive cash flow under the agreement and to sell financial assets and the agreement condition of financial assets generating cash flow that only pays the principal and interest from the principal balance on the specified date. The change of value of financial assets is recognized through other comprehensive income except loss on impairment and interest income and gain and loss on exchange rate are recognized as profit or loss upon recognized of financial assets. Earning or deficit previously recognized in other comprehensive income has to be reclassified into profit or loss. Such financial asset has to be calculated using the effective interest rate same as financial assets measured at amortized cost.
- Financial assets measured at fair value through profit or loss when financial assets that do not meet the criteria for amortized cost or financial assets measured at fair value through other comprehensive income will be presented in the statement of financial position at fair value by recognizing the net change of fair value in profit or loss.

Subsequent valuation of equity instruments must present equity instruments using the fair value and record profit/loss from change in fair value through profit or loss or other comprehensive income depending on equity instruments classification.

NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

Classification and valuation of financial liabilities

The Company and its subsidiary are recognized initially of financial liabilities at fair value net of transaction costs and classified as financial liabilities as financial liabilities subsequently measured at amortized cost using the effective rate. The amortized cost is calculated taking into account fees or costs that are an integral part of the effective rate. Amortization by the effective rate is presented as part of financial costs in profit or loss.

Derecognition of financial instruments

Financial assets will be derecognized from the account when the right to receive cash flow of such asset has ended or when the right to receive cash flow of the assets is transferred including upon the transfer of all risk and consideration of that asset or transfer of internal control in that asset although there is no transfer or maintaining of nearly all risk and consideration of such asset.

Financial liabilities will be derecognized from the account when the obligation of such liabilities has been complied, the obligation is cancelled or the obligation has ended. In case existing financial liabilities are changed to new liabilities from one single lender with considerably different requirements or there is a significant amendment in the requirements of existing liabilities, these are considered as recognition old liabilities and recognizing new liabilities by recognizing the difference of such carrying value under profit or loss.

Impairment of financial assets

Expected credit loss for financial assets measured at amortized cost or debt instrument financial asset measured at fair value through other comprehensive income and assets arising from credit facility obligation and financial guarantee agreement are assessed without having to wait for the credit event to occur first. The Company and its subsidiary use the general approach in considering the allowance for loss on impairment. For trade receivables, the Company and its subsidiary apply a simplified approach in calculating ECLs. The Company and its subsidiary recognize a loss based on lifetime ECLs at each reporting date. It is based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

Offset of financial instruments

Financial assets and liabilities will be offset and presented at net balance in the statement of financial position in the case legally enforced in offsetting the recognized amount. The Company and its subsidiary intend to pay the net balance or intends to receive assets and settle payment of liabilities at the same time.

3.5 Derivatives and hedging activities

The Company and its subsidiary initially recognized derivatives at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value. The subsequent changes are recognized in profit or loss.

Derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not due to be realized or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

Hedge accounting

The Company and its subsidiary designate certain derivatives as hedging instruments in respect of interest rate risk in cash flow hedges.

At the inception of a hedging relationship, the Company and its subsidiary designate formally designate and document the hedging relationship to which it wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

Furthermore, at the inception of the hedge and on an ongoing basis, the Company and its subsidiary documents whether the hedging instrument is effective in offsetting changes in or cash flows of the hedged item attributable to the hedged risk, which is when the hedging relationships meet all of the following hedge effectiveness requirements;

- There is an economic relationship between the hedged item and the hedging instrument;
- The effect of credit risk does not dominate the value changes that result from that economic relationships ; and
- The hedged ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Company and its subsidiary actually hedges and the quantity of the hedging instrument that the Company and its subsidiary actually uses to hedge that quantity of hedged item.

KRUNGTHAI CAR RENT AND LEASE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY
NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognized in the other comprehensive income. The gain or loss relating to the ineffective portion is recognized in profit or loss.

3.6 Inventories

Inventories are valued at the lower of cost or net realizable value.

The Company determines the cost of spare part by the weighted average method.

The subsidiary company determines the cost of car by the specific method.

The net realizable value of inventory is estimated from selling price in the ordinary course of business, less the estimated costs to complete the sale.

3.7 Investment in subsidiary company

Subsidiary is entities over which the Company has the power to control their financial and operating policies generally accompanying a shareholding of more than one-half of the voting rights. The financial statements of the subsidiary is consolidated from the date the Company exercises control over the subsidiary until the date that control power ceases.

Investments in subsidiary company in the separate financial statements are recorded under the cost method net by the allowance for the impairment of investments (if any).

3.8 Assets for disposal

Assets for disposal are stated at cost after deducted accumulated depreciation and allowance for the impairment (if any).

3.9 Assets for leases

Assets for leases (car) are stated at cost after deducted accumulated depreciation and allowance for impairment (if any). Depreciation of assets for leases is calculated by cost less residual value on the straight-line method over the estimated useful lives of 5 years.

The Company has reviewed the residual value and useful life of the assets for lease regularly.

3.10 Property, plant and equipment

Land is stated at cost. Plant and equipment are stated at cost after deducted accumulated depreciation and allowance on decline in value (if any).

KRUNGTHAI CAR RENT AND LEASE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY
NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

Cost is initially recognized upon acquisition of assets along with other direct costs attributing to acquiring such assets in the condition ready to serve the objectives, including the costs of asset demolition, removal and restoration of the asset location, which are the obligations of the company (if any).

Depreciation of equipment is calculated by cost less residual value on the straight-line method over the following estimated useful lives:

	<u>Useful lives (years)</u>
Building	20
Equipment	5
Furniture & fixture and office equipment	5
Vehicles	5

The Company and its subsidiary have reviewed the residual value and useful life of the assets regularly.

No depreciation is provided on land, construction in progress and equipment under installation.

The depreciation for each assets component is calculated on the separate components when each component has significant cost compared to the total cost of that asset.

Depreciation is included in determining income.

Property, Plant and equipment are written off at disposal. Gains or losses arising from sale or write-off of assets are recognized in the statement of comprehensive income.

3.11 Intangible assets

Amortization is recorded as expenses in statements of comprehensive income and calculated by the straight -line method over the estimated economic useful live :

3.12 Borrowing costs

Borrowing costs directly attributed to the acquisition or construction of an asset that necessarily takes long time to put in ready to use or available for sale state are capitalized as part of the cost of the respective asset until that asset condition is ready for its intended use. All other borrowing costs are expensed in the period they are incurred. Borrowing costs consist of interest and other costs arising from such borrowing.

KRUNGTHAI CAR RENT AND LEASE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY
NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

3.13 Impairment of non-financial assets

As at the statement of financial position date, the Company and its subsidiary assess whether there is an indication of asset impairment. If any such indication exists, the Company will make an estimate of the asset's recoverable amount. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognized in the statement of comprehensive income. In addition, impairment loss is reversed if there is a subsequent increase in the recoverable amount. The reversal shall not exceed the carrying value that would have been determined net of accumulated depreciation or amortization. The recoverable amount of the asset is the asset's value in use or fair value less costs to sell.

3.14 Deferred debenture issuing costs

Debenture issuing costs are recorded as deferred financial fees and amortized to be interest expense using the effective interest rate method over the term of the debentures.

Deferred debenture issuing costs are presented as a deduction against the debenture amounts in the statement of financial position.

3.15 Lease

At inception of a contract, the Company and its subsidiary assess whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company and its subsidiary assess the lease term for the non-cancellable period as stipulated in lease contract or the remaining period of active leases together with any period covered by an option to extend the lease if it is reasonably certain to be exercised or any periods covered by an option to terminate the lease if it is reasonably certain not to be exercised by considering the effect of changes in technology and/or the other circumstance relating to the extension of the lease term.

Right-of-use assets-as a lessee

Right-of-use assets are recognized at the commencement date of the lease. Right-of-use assets are stated at cost, less any accumulated depreciation and impairment losses (if any), and adjusted for any remeasurement of lease liabilities (if any). The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received.

KRUNGTHAI CAR RENT AND LEASE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY
NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

The cost of right-of-use assets also includes an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are calculated by reference to their costs on a straight-line basis over the shorter of the lease term and the estimated useful lives for each of right-of-use assets.

Lease liabilities

At the commencement date of the lease, lease liabilities are stated at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable (if any) and amount expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and its subsidiary and payments of penalties for terminating the lease, if the lease term reflects the Company and its subsidiary exercising the option to terminate.

In calculating the present value of lease payments, the Company and its subsidiary use its incremental borrowing rate, which is determined by referring to the government bond yield adjusted with risk premium depending on the lease term, at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of the interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Company and its subsidiary apply the short-term lease recognition exemption to its short-term leases (those leases that have a lease term of 12 months or less from the commencement date and not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered of low value. Lease payments on short-term and leases of low-value assets are recognized as expense in profit and loss on a straight-line basis over the lease term.

NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

3.16 Employee benefits

Short - term employment benefits

The Company and its subsidiary recognize salary, overtime, bonus, social securities and provident fund as expenses when incurred.

Post-employment benefits (Defined contribution plans)

The Company and its subsidiary have jointly established a provident fund. The fund is monthly contributed by employees and by the Company. The fund's assets are held in a separate trust fund and the Company's contributions are recognized as expenses when incurred.

Post-employment benefits (Defined benefit plans)

The Company and its subsidiary have obligations in respect of the severance payments that it must pay to the employees upon retirement under the labor law and other employee benefit plans. The Company and its subsidiary treat these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is calculated based on the actuarial principles by a qualified independent actuary using the projected unit credit method. Such estimates are made based on various assumptions, including discount rate, future salary increase rate, staff turnover rate, mortality rate, and inflation rate.

Actuarial gains and losses for post-employment benefits of the employees are recognized immediately in statement of comprehensive income.

3.17 Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the company, including holding companies, subsidiary and fellow subsidiary are related parties of the company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the company that gives them significant influence over the enterprise, key management personnel, including directors and officers of the company and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

3.18 Provisions

Provisions are recognized when the Company and its subsidiary have a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. Where the Company and its subsidiary expect a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain.

3.19 Income tax expenses

Income tax comprises current income tax and deferred tax.

Current tax

The Company and its subsidiary record income tax expense, if any, based on the amount currently payable under the Revenue Code at the income tax rates 20% of profit before income tax, after adding back certain expenses which are non-deductible for income tax computation purposes, and less certain transactions which are exemption or allowable from income tax.

Deferred tax

Deferred tax assets and liabilities are provided on the temporary differences between the carrying amount and the tax bases of assets and liabilities at the end of the reporting period. Changes in deferred tax assets and liabilities are recognized as deferred tax income or deferred tax expense which are recognized in the profit or loss except to the extent that it relates to items recognized directly in shareholders' equity or in other comprehensive income.

The deductible temporary differences are recognized as deferred tax assets when it is probable that the Company and its subsidiary will have future taxable profit to be available against which the deferred tax assets can be utilized. The taxable temporary differences on all taxable items are recognized as deferred tax liabilities.

Deferred tax assets and liabilities are measured at the tax rates that the Company and its subsidiary expect to apply to the period when the deferred tax assets are realized or the deferred tax liabilities are settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

KRUNGTHAI CAR RENT AND LEASE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY
NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

At the end of each reporting period, the carrying amount of deferred tax assets are reviewed and reduced the value when it is probable that the Company and its subsidiary will have no longer the future taxable profit that is sufficient to be available against which all or some parts of deferred tax assets are utilized.

Deferred tax assets and deferred tax liabilities are offset when there is the legal right to settle on a net basis and they relate to income tax levied by the same tax authority on the same taxable entity.

3.20 Fair value of financial instruments

The Company and its subsidiary use the market approach to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards, except that the cost approach or income approach is used when there is no active market or when a quoted market price is not available.

Fair value hierarchy

Level 1 - Use of quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Use of inputs other than quoted prices included within level 1 that are observable for the assets or liabilities, either directly (e.g. prices) or indirectly (e.g. derived from prices).

Level 3 - Use of unobservable inputs such as estimates of future cash flows.

3.21 Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect amounts reported in the financial statements and disclosures and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Expected credit losses

In determining an allowance for expected credit losses for accounts receivable, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the prevailing economic condition.

KRUNGTHAI CAR RENT AND LEASE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY
NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

Allowance for declining in value of inventory

The determination of allowance for declining in the value of inventory, requires management to make judgements and estimates of the loss expected to occur. The allowance for decline in net realizable value is estimated based on the selling price expected in the ordinary course of business less selling expense. The allowance for diminution in value of inventory as determined is compared with the original balance in the books of account and the increase or decrease in the allowance for diminution in value of inventory will be recognized as cost of sales and service in profit or loss.

Assets for leases and depreciation

In determining depreciation of Assets for leases, the management is required to make estimates of the useful lives and residual values of Assets for leases and to review the estimated useful lives and residual values when there are any changes.

Determining the lease term of contracts with renewal and termination options

The Company and its subsidiary determine the lease term as the non-cancellable term of the lease, together with any period covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. The management is required to use judgment in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease, considering all relevant factors that create an economic incentive to exercise either the renewal or termination. After the commencement date, the Company and its subsidiary reassess the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate.

Estimating the incremental borrowing rate

The Company and its subsidiary cannot readily determine the interest rate implicit of the lease. Therefore, the incremental borrowing rate of the Company and its subsidiary are used to discount lease liabilities. The incremental borrowing rate is the rate of interest that the Company and its subsidiary would have to pay for necessary borrowing to acquire the assets, or assets with close value to right-of-use assets in similar economic environment, borrowing period and borrowing security.

KRUNGTHAI CAR RENT AND LEASE PUBLIC COMPANY LIMITED AND ITS SUBSIDIARY
NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

Depreciation of property plant and equipment and right-of-use assets and amortization of intangible assets

In determining depreciation of plant and equipment and right-of-use assets and amortization of intangible assets, the management is required to make estimates of the useful lives and residual values of the plant and equipment and to review estimate useful lives and residual values when there are any changes.

In addition, the management is required to review property, plant and equipment and right-of-use assets and intangible assets for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Deferred tax assets

Deferred tax assets are recognized for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of estimated future taxable profits.

Post-employment benefits under defined benefit plans

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

Fair value of financial instruments

In determining the fair value of financial instruments recognized in the statement of financial position that are not actively traded and for which quoted market prices are not readily available, the management exercise judgement, using a variety of valuation techniques and models. The input to these models is taken from observable markets, and includes consideration of credit risk, liquidity, correlation and longer-term volatility of financial instruments. Change in assumptions about these factors could affect the fair value recognised in the statement of financial position and disclosures of fair value hierarchy.

NOTES TO THE FINANCIAL STATEMENTS (CONT.)
DECEMBER 31, 2021

32. DISCLOSURE OF FINANCIAL INSTRUMENTS

32.1 Risk management

The Company and its subsidiary manage their financial risk exposure on financial assets and financial liabilities in the normal business by its internal management and control system. The management continually monitors the Company's and its subsidiary's risk management process to ensure that an appropriate balance between risk and control is achieved.

32.2 Credit risk

The Company and its subsidiary are exposed to credit risk primarily relating to trade and other receivable, cash at bank and other financial instruments. The management of the Company and its subsidiary manage this risk by establishing appropriate credit control policies and procedures. Therefore, it does not expect to incur material losses from debt collection more than the amount already provided in the allowance for doubtful accounts.

32.3 Interest rate risk

The Company and its subsidiary are exposed to interest rate risk that relates primarily to cash and cash equivalents, cash at banks using for guarantee, bank overdrafts and short-term loans from financial institutions, Long-term loans from financial institutions, leases liabilities and Employee benefit obligations. Since most of the Company's financial assets and financial liabilities carry floating interest rates or have fixed interest rates, which are close to the market rates, the interest rate risk is low.

As at December 31, 2021 and 2020, the significant financial assets and financial liabilities (part of these are under derivative instruments as described in Note 18) classified by types of interest rates were as follows:

Interest rate swap contracts

As at December 31, 2021 and 2020, the Company had the interest rate swap agreements designated as hedging instruments with a notional amount of Baht 172.02 million whereby the Company receives a variable rate equal to THBFIX plus margin of interest as per disclosed in Note 18 to the consolidated financial statements and pays interest at a fixed rate.

There is an economic relationship between the hedged item and the hedging instrument as the terms of the interest rate swap match the terms of the fixed rate debentures (i.e., notional amount, maturity, payment and reset dates). The Company tested the hedge effectiveness by comparing the changes in the fair value of the hedging instruments against the changes in fair value of the hedged items attributable to the hedged risks.

The main source of hedge ineffectiveness in these hedge relationships is the effect of the counterparty and the Company own credit risk on the fair value of the interest rate swap contracts, which is not reflected in the fair value of the hedged item attributable to the change in interest rates. No other sources of ineffectiveness emerged from these hedging relationships.

As at December 31, 2021 and 2020, the nominal and carrying amounts of the derivative financial instruments designated in existing hedging relationships in the consolidated and separate financial statements are follow:
